POD
Allows you to create dynamic environments.

POD

POD highlights the skill and craftsmanship of Malaysia made upholstery. Designed with a softer aesthetic and the ability to be customised, POD screens you from sight and sound. Fully upholstered furniture pods that shape your work place in a dynamic and efficient way.

POD utilizes a series of screens that combine to create a range of pods that allow individuals or teams (large or small) to retreat from the general open office environment for specific work modes.

POD is quick and easy to install and can be used with fixed work tops or freestanding height adjustable desks. There is also an option to reticulate power and data cables within the screens for seamless connectivity.

Quick and easy to install and can be used with a fixed work top
or freestanding height adjustable desk.

A space saver for the more transient worker needing a place to touch-down.

WORK POD

When you need to focus and concentrate on the task at hand, step into Work Pod, in three different size options. Screens with height-adjustable glides are fully upholstered for optimum sound absorption and come in two heights. All screens are finished with twin needle stitch detail. Work Pod can be fitted with a fixed height work top at three optional heights, at 700mm deep, or a freestanding height adjustable desk.

WORK POD - C

This compact work pod is a space saver and suitable for the more transient worker, never staying too long but needing a place to touch-down for a few hours. Screens with height adjustable glides are fully upholstered for optimum sound absorption and come in two heights. All screens are finished with twin needle stitch detail. Work Pod-C can be fitted with a fixed height work top at three optional heights, at 700mm deep, or a freestanding height adjustable desk.

WORK POD DIMENSIONS
Available in two Heights.

Work Pod is available in Left and Right Hand Side configurations.

## WORK POD - C DIMENSIONS
Available in two Heights.

# Daisy-chain your Work Pod and save.
WORK POD CONFIGURATION

Work Pod features two different workstation modules, Work Pod and Work Pod - C. By combining these, it is possible to create a variety of workspaces. The idea is that the Work Pod modules allow convertibility and flexibility in workplace design, whatever the size of the office.

WORK POD XPRESS

Today, many people are mobile workers and are able to carry out their more simple tasks on their mobile phones and laptops. However, sometimes you just have to stop and reply to emails or focus on other work tasks. The Work Pod Xpress workstation has been designed precisely for this.

Work Pod Xpress offers a private place for short-term working in an activity based office. The table top is available either in sitting or standing height.
WORK POD XPRESS DIMENSIONS
Available in two Heights.

The perfect alternative to building a conference room.

Collaborative teamwork.

CONFERENCE POD

The perfect alternative to building a conference room. As well as a meeting pod you can use it in multiple ways. Furnish it with comfy soft seating and use as a hub to retreat in or cafe style tables as a lunch room. Screens with height adjustable glides are fully upholstered for optimum sound absorption at 1800mm high, in three generous sizes and is completely freestanding.
