BEHIND EVERY
GREAT DESIGN,

IS A TALE WORTH
TELLING.

INTRODUCTION

Matic Degree brings beautiful spaces to life with inspired design, where every detail has a story to tell.

Each piece of our desking collection is built with care, thought and feeling, imbued with a seamless combination of engaging aesthetics and unparalleled functionality.

Supremely adaptable and versatile, our designs integrate organically with any workplace concept and layout, creating natural, free-flowing workplaces that foster better connection, creativity, productivity and, ultimately, greater prosperity for all.

DESIGN TOUCH BY DESKING COLLECTION

With the Bare Essential Minimalist collection, Matic Degree embraces the philosophy of minimalism, where each of our designs is meant to be enjoyed, touched, used and seen for years.

Basic geometric forms, elements stripped down to their bare essentials, simplistic materials and repetition of structures that awaken a sense of order and propriety combine to bring to life sheer usability and experience, minus the unnecessary frills.

This is true to the essence of minimalism, that is, the art of being able to conveniently and aesthetically live with less — therefore, while our designs are minimal, they in no way exclude the essential functionality of each piece, providing a clear balance between functionality, comfort and aesthetic purity.

DESKING COLLECTION

FRAME

The movement water is constant and infinite, and this collection expresses the perpetual, mesmerising and continuous flow of liquid.

This fluidity extends to the functionality of our pieces, where legs can be fitted at different angles to adapt to space constraints.

The beautiful lines of the legs are enhanced when installed at a 30°, whereas fitting them at 90° allows for more space for shelving and storage.

Free of rough edges and unnecessary frills, the legs fit perfectly into tight corners, against walls, and within nooks and crannies, freeing workspaces of clutter and obstruction.

FINISHING & COLOUR

Conforming to a clean and unified aesthetic in all of its designs, Matic Degree offers a variety of premium finishes and coatings.

Colour selections include Black, Graphite, Silver, White and Chrome, cool, neutral hues that enhance spaces with contemporary and modernist flair.

Our high quality finishes go beyond aesthetic presence, providing sustainable protection and easy maintenance to ensure a classic, timeless flavour.

COMPONENTS

Our desking collection is complemented by a matching range of tabletops.

A wide selection of Melamine surfaces with subtle wood grain helps our designs blend into any design theme; the unique characteristics and composition of each surface also allows for an added individualistic touch.

Tabletops can also be further customised based on our comprehensive Laminates Library, truly bringing your inspirations to beautiful life.
