X-TRANS

X-TRANS is a task chair that enhances any environment and any body. Our objective was to build an ergonomically correct chair to instantly and comfortably fit every user regardless of body type. In essence, a chair that adapts to you, not the other way around.

Designed by Martin Ballendat (Germany)

In the office, many of us spend time with uncomfortable posture and hunching over the chair.

To solve uncomfortable seating posture, the chair is needed to be understood and to support the activities in the various office environments.
